

## E-Rate Walk Through Questions - Oct 6, 2025

10:00 am  
White City Schools

1. Where does the cabling terminate?  
In the tech room up on the stage.
2. Will you be adding switches?  
No, not unless we need to
3. Do you have blueprint/floorplans that can be emailed to the vendors?  
Yes, upon request
4. Do you need 168 drops?  
No, when I was counting drop points, I counted all of the boxes for hardwire CAT5. Now that we have access points for WiFi throughout the buildings, we do not need that many drop points.
5. If we can clean up the wires, do you want us to?  
YES!
6. Do you need new access points?  
Some are not working.  
Example: The one in the special education room on the 3rd floor.
7. Are security cameras going into the network?  
Yes
8. Will you be adding more cameras?  
No
9. Is the high school one level?  
Yes, with a solid ceiling
10. Would you like the switches located in a central location?  
Yes
11. Is there fiber connection to the building?  
Yes

---

### Hope Schools

1. Is there fiber connection to the building?  
Yes
2. Is there fiber connecting the outer buildings?  
Unsure. So we will find out.
